PART I – FINANCIAL INFORMATION

This Quarterly Report includes forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements are based on management’s beliefs and assumptions, and on information currently available to management. Forward-looking statements include the information concerning our possible or assumed future results of operations set forth under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Forward-looking statements also include statements in which words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “estimate,” “consider,” or similar expressions are used.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties, and assumptions. Our future results and shareholder values may differ materially from those expressed in these forward-looking statements. Readers are cautioned not to put undue reliance on any forward-looking statements.

ITEM 1 Condensed Consolidated Financial Statements

The balance sheets as of March 31, 2018 and December 31, 2017, the statements of operations for the three months ended March 31, 2018 and 2017, the statements of changes in stockholders’ deficit for the three months ended March 31, 2018 and 2017, and statements of cash flows for the three months ending March 31, 2018 and 2017, follow. The unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. All such adjustments are of a normal and recurring nature.

TransBiotec, Inc.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

NOTE 1. ORGANIZATION, OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

TransBiotec, Inc. ("TransBiotec – DE"), formerly Imagine Media LTD., was incorporated August, 2007 in the State of Delaware. A corporation also named TransBiotec, Inc. ("TransBiotec – CA") was formed in the state of California July 4, 2004. Effective September 19, 2011 TransBiotec - DE was acquired by TransBiotec - CA in a transaction classified as a reverse acquisition as the shareholders of TransBiotec - CA retained the majority of the outstanding common stock of TransBiotec - DE after the share exchange. The financial statements represent the activity of TransBiotec - CA from July 4, 2004 forward, and the consolidated activity of TransBiotec - DE and TransBiotec - CA from September 19, 2011 forward. TransBiotec - DE and TransBiotec - CA are hereinafter referred to collectively as the "Company". The Company has developed and plans to market and sell a non-invasive alcohol sensing system which includes an ignition interlock. The Company has not generated any revenues from its operations.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") as promulgated in the United States of America and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes thereto for the year ended December 31, 2017, included in the Company's Annual Report on Form 10-K filed with the SEC on February 6, 2019.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its majority owned subsidiary, Transbiotec-CA. We have eliminated all intercompany transactions and balances between entities consolidated in these unaudited condensed financial statements.

Use of Estimates

The preparation of unaudited condensed consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Specifically, such estimates were made by the Company for the valuation of derivative liability, stock compensation and beneficial conversion feature expenses. Actual results could differ from those estimates.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

Cash

The Company considers all highly liquid investments with an original maturity of three months or less as cash equivalents. The Company does not have any cash equivalents as of March 31, 2018 and December 31, 2017.

Income Tax

The Company accounts for income taxes pursuant to ASC 740. Under ASC 740 deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. The Company has not recorded any deferred tax assets or liabilities at March 31, 2018 and December 31, 2018, respectively.

Net Loss Per Share

The basic and fully diluted net loss per share is computed by dividing the net loss by the weighted average number of shares of common outstanding.

Financial Instruments

Pursuant to ASC Topic 820, *Fair Value Measurements and Disclosures* and ASC 825, *Financial Instruments*, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 and 825 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 and 825 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

[Table of Contents](#)

TransBiotec, Inc.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The Company's financial instruments consist primarily of cash, accounts payable, accrued expenses, accrued interest payable, notes payable, related party payables, and convertible debentures. Pursuant to ASC 820 and 825, the fair value of our cash and cash equivalents is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. We believe that the recorded values of all of our other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

The Company had no assets and liabilities that were measured and recognized at fair value on a recurring basis as of March 31, 2018 and December 31, 2017, respectively.

Beneficial Conversion Features

From time to time, the Company may issue convertible notes that may contain an embedded beneficial conversion feature. A beneficial conversion feature exists on the date a convertible note is issued when the fair value of the underlying common stock to which the note is convertible into is in excess of the remaining unallocated proceeds of the note after first considering the allocation of a portion of the note proceeds to the fair value of the warrants, if related warrants have been granted. The intrinsic value of the beneficial conversion feature is recorded as a debt discount with a corresponding amount to additional paid in capital. The debt discount is amortized to interest expense over the life of the note using the effective interest method.

Derivative Instruments

The fair value of derivative instruments is recorded and shown separately under current liabilities. Changes in fair value are recorded in the consolidated statement of operations under other income (expense).

The accounting treatment of derivative financial instruments requires that the Company record the embedded conversion option at its fair values as of the inception date of the agreement and at fair value as of each subsequent balance sheet date. Any change in fair value is recorded as non-operating, non-cash income or expense for each reporting period at each balance sheet date. If the classification changes as a result of events during the period, the contract is reclassified as of the date of the event that caused the reclassification. As a result of entering into warrant agreements, for which such instruments contained a variable conversion feature with no floor, the Company has adopted a sequencing policy in accordance with ASC 815-40-35-12 whereby all future instruments may be classified as a derivative liability with the exception of instruments related to share-based compensation issued to employees or directors. For stock-based derivative financial instruments, the Company uses a weighted average Black-Sholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date.

TransBiotec, Inc.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

The Company evaluates all of its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instruments are initially recorded at their fair values and are then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations.

During the year ended December 31, 2016, the Company determined approximately 11,127,182 stock warrants and 2,225,000 stock options granted for common shares, notes convertible into 22,137,880 common shares, and a shares purchase of 3,571,429 common shares, that totaled 38,455,430 common shares were in excess of the Company's authorized shares amount of 100,000,000 and was therefore accounted for at fair value under ASC 820, Fair Value Measurements and Disclosures and ASC 825, Financial Instruments. The fair market value adjustments were calculated utilizing the Black-Scholes method using the following assumptions: risk free rates ranging between 0.10% - 1.06%, dividend yield of 0%, expected life of 1 year, volatility between 134% - 408%. Utilizing Level 3 Inputs, the Company recorded fair market value adjustments for the 38,455,430 common shares over the Company's 100,000,000 authorized shares amount. On March 28, 2017, the Company filed a preliminary information statement (Schedule PRE 14C) with the SEC, reporting that stockholders of the Company owning a majority of the Company's outstanding voting securities have approved the following action (The "Action") by written consent dated March 10, 2017, in lieu of a special meeting of a stockholders. The SEC had 10 days from the March 28, 2017 filing date to comment on the Information Statement. The Company did not receive any comments on the Information Statement from the SEC within the 10-day period; filed a definitive information statement (Schedule DEF 14C) with the SEC on April 21, 2017 and mailed on April 26, 2017 to all shareholders of record as of March 27, 2017 (as identified in the certified shareholders list received from the Company's transfer agent). To complete the action, the Company filed an amendment to its Certificate of Incorporation with the State of Delaware on May 25, 2017, which increased the Company's authorized shares from 100,000,000 shares to 800,000,000 shares. The Company then reduced this derivative liability to zero and recorded a fair value adjustment loss on derivatives of \$12,023 during the year ended December 31, 2017.

Stock-based Compensation

Stock-based compensation cost to employees is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period under ASC 718. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock to non-employees and other parties are accounted for in accordance with the ASC 505-50 "Equity-Based Payments to Non-Employees".

Minority Interest (Noncontrolling Interest)

A subsidiary of the Company has minority members, representing ownership interests of 1.38% at March 31, 2018 and December 31, 2017. The Company accounts for these minority, or noncontrolling interests, pursuant to ASC 810-10-65 whereby gains and losses in a subsidiary with a noncontrolling interest are allocated to the noncontrolling interest based on the ownership percentage of the noncontrolling interest, even if that allocation results in a deficit noncontrolling interest balance.

Related Parties

Related parties are any entities or individuals that, through employment, ownership or other means, possess the ability to direct or cause the direction of the management and policies of the Company.

New Pronouncements

In July 2017, the FASB issued ASU-2017-11, Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Noncontrolling Interests of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. The first part of this update addresses the complexity of accounting for certain financial instruments with down round features and the second part addresses the complexity of distinguishing equity from liabilities. The guidance is applicable to public business entities for fiscal years beginning after December 15, 2018 and interim periods within those years. We are currently evaluating the potential impact of the adoption of this standard on our consolidated results of operations, financial position and cash flows, and related disclosures.

In May 2017, the Financial Accounting Standards Board, (“FASB”) issued Accounting Standards Update (“ASU”) 2017-09, *Scope of Modification Accounting, clarifies Topic 718, Compensation – Stock Compensation*, which requires a company to apply modification accounting to changes in the terms or conditions of a share-based payment award unless all of the following criteria are met: (1) the fair value of the modified award is the same as the fair value of the original award immediately before the modification. The ASU indicates that if the modification does not affect any of the inputs to the valuation technique used to value the award, the entity is not required to estimate the value immediately before and after the modification; (2) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the modification; and (3) the classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the modification. The ASU is effective for all entities for fiscal years beginning after December 15, 2017, including interim periods within those years. Early adoption is permitted, including adoption in an interim period. The Company has adopted ASU 2017-09 and currently does not have any modifications to existing stock compensation agreements but will be able to calculate the impact of the ASU if modifications arise.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases, which establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. We are currently evaluating the impact of our pending adoption of the new standard on the consolidated financial statements.

The Company has early adopted ASU 2017-24 in 2018 which simplifies the accounting for certain equity-linked financial instruments and embedded feature with down round features that reduce the exercise price when the pricing of a future round of financing is lower. The Company has no equity-linked financial instruments or embedded feature with down round features that reduced the exercise price when the pricing of a future round of financing is lower therefore there was no accounting effect upon the early adoption.

NOTE 2. GOING CONCERN

The Company has suffered recurring losses from operations and has a working capital deficit and stockholders' deficit, and in all likelihood, will be required to make significant future expenditures in connection with continuing marketing efforts along with general administrative expenses. As of March 31, 2018, the accumulated deficit is \$17,846,220, a \$231 cash balance, carrying loans of principal and interest in default totaling \$1,106,424, current notes payable and interest of \$1,205,927 and cash outflows from operating activities of \$20,211. These principal conditions or events, considered in the aggregate, indicates it is probable that the entity will be unable to meet its obligations as they become due within one year after the date the financial statements are issued. As such, there is substantial doubt about the entity's ability to continue as a going concern.

On May 25, 2017, the Company increased their number of unauthorized shares from 100,000,000 to 800,000,000 as they hope to raise additional capital through the sale of its equity securities, through an offering of debt securities, or through borrowings from financial institutions or others, and debt restructure (conversion of debt to equity). By doing so, the Company further hopes to generate revenues from sales of its alcohol sensing and ignition lock systems. The Company is currently engaged in talks with potential sales reps, funding sources, and manufacturers. They may also consider opportunities to create synergy with its SOBR product. Management believes actions presently being taken to obtain additional funding provide the opportunity for the Company to continue as a going concern. Management's plans are speculative at this time, and no formal documentation of these plans nor approvals of such plans have occurred on or before March 31, 2018. As such, substantial doubt about the entity's ability to continue as a going concern has not been alleviated as of March 31, 2018.

NOTE 3. RELATED PARTY TRANSACTIONS

In May 2011, the Company entered into an employment agreement with Mr. Bennington which expired on December 31, 2017. The employment agreement provided that the Company would pay Mr. Bennington a salary of \$120,000 during the first year of the agreement, \$156,000 during the second year of the agreement, \$172,000 during the third year of the agreement, \$190,000 during the fourth year of the agreement and \$208,000 during the fifth year of the agreement. Since the Company was unable to compensate him as stipulated per the agreement, Mr. Bennington agreed to drop his yearly compensation, and resulting yearly accrual, to \$120,000 per year with no yearly increases as stipulated in years 2 through 5. In September 2016, before the expiration of Mr. Bennington's contract, the Company appointed Ivan Braiker as its sole CEO, and Mr. Bennington subsequently took a role as a member of the Board of Directors at a monthly rate of \$5,000. In connection with Mr. Braiker's appointment, Mr. Braiker entered into a letter agreement with us, under which he accrued a monthly retainer of \$7,500, to be paid only if the Company successfully closed financing of at least \$200,000. Mr. Braiker was also granted options to purchase 1,500,000 shares of our common stock at an exercise price of \$0.0045 per share at a fair value of \$6,290. In an act of good faith by the Company, Mr. Braiker was paid \$15,000 in 2017 in relation to his letter agreement. Effective with his resignation on December 31, 2017, the Company did not owe, accrue for or pay Mr. Braiker any further compensation as he was unable to secure financing of \$200,000 for the Company as stipulated per the letter agreement. Mr. Braiker was not compensated for his services as a member of our Board of Directors.

As of March 31, 2018, and December 31, 2017, the Company had payables due to officers for accrued compensation and services of \$474,156 and \$474,156, respectively, recorded as related party payables on the condensed consolidated balance sheets. We have no formal plan for compensating our directors for their service in their capacity as directors, although such directors may receive stock options to purchase common shares as awarded by our board of directors or (as to future stock options) a compensation committee which may be established. Directors are entitled to reimbursement for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meetings of our board of directors. Our board of directors may award special remuneration to any director undertaking any special services on our behalf other than services ordinarily required of a director.

On December 3, 2014, Lanphere Law Group, a related party and the Company's largest shareholder, entered into an agreement with the Company to convert 50% of its outstanding accounts payable of \$428,668 to a note payable. This note payable represents the one half balance in the amount of \$214,334 of attorney fees and costs owed up until October 31, 2014. This agreement further provided that the remaining 50% of unpaid legal fees in accounts payable were to be paid and retained as a current payable. In addition, 50% of the attorney fees and costs incurred starting from November 1, 2014 are to be converted on a monthly basis to common stock at a price of \$0.09 per share until the accounts payable balance for attorney fees is paid current. The Company has recorded to equity a total related party gain related to these conversions as of March 31, 2018 and December 31, 2017 of \$189,887 and \$182,111, respectively. During the three month period ended March 31, 2018 and March 31, 2017, approximately \$8,204 converted to 91,148 legally issued common shares and \$0 converted to no common shares (as the Company's unissued common stock exceeded its authorized shares limit of 100,000,000 shares). These payables were for legal expenses recorded to general and administrative expense as incurred. Per this agreement as of March 31, 2018 and December 31, 2017, on a cumulative basis, approximately \$201,831 of accounts payable was converted into 2,242,565 legally issued common shares and \$193,627 was converted into 2,151,417 legally issued common shares, respectively. These payables were for legal expenses and were previously recorded to general and administrative expense as incurred.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2018

On July 1, 2015, the Company amended the December 3, 2014 note payable agreement with Lanphere Law Group, a related party and the Company's largest shareholder, which forgave \$108,000 of the note payable's principal balance. This debt forgiveness brought down the original principal balance on the note of \$214,334 to a new principal balance of \$106,335, and a related party gain of \$108,000 was recorded to additional paid-in capital. This amendment also extended the note payable's due date to December 2, 2015, however, this note payable is currently in default.

On March 8, 2017, Lanphere Law Group, a related party and the Company's largest shareholder, irrevocably elected to exercise warrants in order to acquire 32,248,932 shares of the Company's common stock in exchange for an aggregate exercise price of \$112,871, which was used for the deduction of \$74,672 of principal and \$38,199 of accrued interest related to the December 3 2014 note payable agreement with Lanphere Law Group. The principal balance of the note after the debt deduction was \$31,662. At March 31, 2018 and December 31, 2017, the principal balance of this note was \$31,662 and \$31,662, respectively. At March 31, 2018 and December 31, 2017, the accrued interest on this note was \$3,949 and \$3,168, respectively. The forgiveness of the note payable principal of \$74,672 was recorded to equity and the \$38,199 of related accrued interest was recorded to equity. After this exercise, Lanphere Law Group still owns warrants to acquire an additional 10,818,583 shares of our common stock.

The Company entered into a lease agreement with Lanphere Law Group, a related party and the Company's largest shareholder, whereas the Company is the tenant and is paying monthly rent of \$4,100. The term of this operating lease runs from July 1, 2015 to June 30, 2019. Rent expense for the three month period ended March 31, 2018 and March 31, 2017 of \$12,300 and \$12,300 was recorded to general and administrative expense, respectively.

NOTE 4. NOTES PAYABLE

RELATED PARTIES

The Company has certain convertible notes payable to related parties that have a principal balance of \$91,000 and \$91,000 as of March 31, 2018 and December 31, 2017, respectively. These notes carry interest rates ranging from 7% - 9% and have due dates ranging from 1/23/2014 - 4/8/2015. All notes are currently in default carry a default interest rate of 10%, and conversion prices ranging from \$0.0072 - \$0.08 per share. The Company evaluated these convertible notes and determined that, for the embedded conversion option, there was a beneficial conversion value to record. The beneficial conversion feature was amortized over the life of the notes, one year, and was fully amortized at March 31, 2018 and December 31, 2017. No beneficial conversion feature expense was incurred during the three month period ended March 31, 2018 and March 31, 2017.

The Company has certain non-convertible notes payable to related parties that have a principal balance of \$343,700 and \$343,700 as of March 31, 2018 and December 31, 2017, respectively. These notes carry interest rates ranging from 0% - 10% and have due dates ranging from 8/03/2012 - 7/23/2016. All notes are currently in default and carry a default interest rate of 10%.

The Company has certain notes payable with detached free-standing warrants to related parties that have a principal balance of \$236,144 and \$215,844 as of March 31, 2018 and December 31, 2017, respectively. These notes carry interest rates ranging from 7% - 10% and have due dates ranging from 8/05/2015 - 02/27/2019. Eleven of these notes, carrying a total principal balance of \$157,650 are currently in default and carry a default interest rate of 10%. The exercise price for each note payable attached warrant ranges from \$0.0044 - \$0.016. As of March 31, 2018 and December 31, 2017, these notes carried outstanding detached free-standing warrants of 18,953,003 and 16,070,611, respectively. The unamortized discount related to these warrants at March 31, 2018 and December 31, 2017 was \$21,233 and \$19,969, respectively. During the three month period ended March 31, 2018 and March 31, 2017, warrants expense recorded to interest expense was \$10,958 and \$17,983, respectively. The reason for the decrease is related to the decrease in funds borrowed. The fair market value adjustments were calculated utilizing the Black-Sholes method using the following assumptions: risk free rates ranging between 0.23% - 0.85%, dividend yield of 0%, expected life of 1 year, volatility between 256% - 375%.

NOTE 5. STOCK WARRANTS AND STOCK OPTIONS

The Company accounts for employee stock options and non-employee stock warrants under ASC 718 and ASC 505, whereby option costs are recorded based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable, utilizing the Black Scholes pricing model. Unless otherwise provided for, the Company covers option exercises by issuing new shares.

Beginning on December 12, 2012, Michael A. Lanphere, a related party and non-employee, loaned the Company money for a variety of purposes, some for working capital and some to allow the Company to pay outstanding obligations. Each of these loans was made pursuant to the terms of a Loan Agreement with Promissory Note and Stock Fee (the "Agreements"). Under the terms of the Agreements, Mr. Lanphere was not only entitled to repayment of the principal amount loaned to us, with interest, but also what was termed in the Agreements as a "Stock Fee" that the parties are interpreting as a stock warrant, which permits Mr. Lanphere to acquire shares of our common stock in exchange for an exercise price that was estimated based on the date of the loan agreement. The number of shares to be issued to Mr. Lanphere as a Stock Fee under each Agreement was an estimate and varied based on the loan amount and the price of our common stock on the day of the loan and was calculated by this formula: sixty percent (60%) of the loan amount divided by the Company's stock price on the day of the loan, but at a price per share no higher than two and one-half cents (\$0.025). Each Stock Fee is fully vested immediately and expires five (5) years from the date of the loan. Although the Stock Fee could be taken by Mr. Lanphere as a stock grant or a stock warrant, due to the fully vested nature of the Stock Fee, Mr. Lanphere is deemed to beneficially own those shares on the date of each Agreement. The number of warrants outstanding to Mr. Lanphere at March 31, 2018 and December 31, 2017 were 10,818,583 and 10,818,583, respectively.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Disclaimer Regarding Forward Looking Statements

Our Management's Discussion and Analysis or Plan of Operations contains not only statements that are historical facts, but also statements that are forward-looking. Forward-looking statements are, by their very nature, uncertain and risky. These risks and uncertainties include international, national and local general economic and market conditions; demographic changes; our ability to sustain, manage, or forecast growth; our ability to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other risks that might be detailed from time to time in our filings with the Securities and Exchange Commission.

Although the forward-looking statements in this Quarterly Report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by them. Consequently, and because forward-looking statements are inherently subject to risks and uncertainties, the actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this report and in our other reports as we attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

Overview

We have developed an alcohol detection device called "SOBR". The device is a patented system for use in detecting alcohol in a person's system by measuring the ethanol content in their perspiration. Once SOBR is completed and tested, we plan to market the device to four primary business segments: (i) as an aftermarket-installed device to companies and institutions that employ or contract with vehicle drivers, such as trucking companies, limousine companies, and taxi cab companies, where the system will be marketed as a preventative drunk driving detection system, with a possible ignition locking device, (ii) the original equipment manufacturing (OEM) market, where the device would be installed in new vehicles during the original building of a vehicle, (iii) companies and institutions that have an interest in monitoring their employees' or contractors' alcohol level due to their job responsibilities, such as surgeons prior to entering surgery, pilots prior to flying aircraft, mineworkers prior to entering a mine, or the military for personnel returning to a military base from off-base leave or prior to leaving for a mission, and (iv) companies that would want to provide knowledge to their customers of their current alcohol level, such as lounge and bar owners, or customers attending a golfing event. We believe SOBR offers a unique solution to the national alcohol abuse problem. Currently, we have several "prototype" units that are fully-developed, however we believe they are not ready for use and are currently undergoing improvements.

Regarding the use in vehicles, we believe SOBR offers a unique solution to the national drunk driving problem and are currently performing beta testing of SOBR for this use. Our objective is to grow our sales and manufacturing of SOBR by aggressively pursuing the original equipment market ("OEM") once final beta testing is completed. We intend to seek an experienced OEM partner to introduce SOBR to the new automotive market. We believe that an increase in public awareness and consumer interest will generate a demand for alcohol sensing technology and we hope that auto manufacturers will begin installing SOBR as a factory installed option. We will also market SOBR to international car manufacturers which may want to gain a market advantage over domestic auto manufacturers. We will also seek to enter other markets, such as commercial trucking, as well as seek to have included in federal legislation a requirement that alcohol-sensing devices with ignition locking systems be retrofitted in all vehicles in the U.S.

[Table of Contents](#)

We have developed a marketing plan that our management believes will gain market recognition for the SOBR device, primarily through trade shows, industry publications, general solicitation, social media, and public relations, as well as hopefully generating the demand for the SOBR device through the use of selling groups, such as channel sales, distributors, and independent sales contractors. We believe the primary market for the in-vehicle SOBR device initially is the commercial vehicle market, such as trucking companies, taxi cab companies, limousine companies, and bus companies. Many of these companies have a significant financial interest in eliminating drunk drivers from their operations. Secondly, individuals may desire to monitor a family member's vehicle, such as an automobile operated by a minor or a family member with a past alcohol issue.

We believe the primary market for the portable SOBR device is its use by companies and institutions that have an interest in monitoring their employees' or contractors' alcohol level due to their job responsibilities, such as surgeons prior to entering surgery, pilots prior to flying aircraft, mineworkers prior to entering a mine, or the military for personnel returning to a military base from off-base leave.

Although we are still performing beta testing of SOBR, on January 15, 2016, we received a purchase order from our distributor, AG Global Capital, for 250 of our SOBR Ignition Interlock devices. These devices were for a trucking company located in Turkey. Under the terms of the purchase order we would receive \$35,000 as payment for the devices once the devices are delivered. However, during 2016, the purchaser notified our distributor that they wish to put the purchase order on hold due to the political and social unrest in Turkey in order to see how things develop. In 2017, the purchase order was terminated due to the unrest in that region of the world.

Corporate Overview

We were formed in August 2007 to publish and distribute Image Magazine, a monthly guide and entertainment source for the Denver, Colorado area. We generated only limited revenue and essentially abandoned the business plan in January 2009.

On September 19, 2011, we, Imagine Media, Ltd., a Delaware corporation, acquired approximately 52% of the outstanding shares of TransBiotech, Inc., ("TBT") from TBT's directors in exchange for 12,416,462 shares of our common stock. The accounting for this transaction was identical to that resulting from a reverse acquisition, except that no goodwill, or other intangibles were recorded, as our shareholders retained the majority of the outstanding common stock of Imagine Media LTD after the share exchange. The directors of TBT were Charles Bennington, Devadatt Mishal, Nicholas Limer, and Sam Satyanarayana. At the time, these shares represented approximately 52% of our outstanding common stock. TBT was a California corporation. In connection with this transaction, two of our officers resigned and Charles Bennington and Nicholas Limer were appointed as directors and as our President, Chief Executive Officer, and Chief Financial Officer, and our Secretary, respectively, and Ronald Williams was appointed as our Chief Technology Officer.

On January 17, 2012, our Board of Directors amended our Certificate of Incorporation changing our name from Imagine Media, Ltd. to TransBiotech, Inc. On January 31, 2012, we acquired approximately 45% of the remaining outstanding shares of TBT in exchange for 10,973,678 shares of our common stock. In connection with this transaction, two of our directors resigned and Sam Satyanarayana, Ronald Williams and Devadatt Mishal were appointed directors. Because of the September 2011 and January 2012 acquisitions of TBT common stock, we currently own approximately 98.62% of the outstanding shares of TBT, and we control its board of directors and officer positions. The remaining 3% are owned by non-affiliated individuals that did not participate in the share exchange.

As a result of the acquisition, TBT's business is our business and, unless otherwise indicated, any references to "us" or "we" includes the business and operations of TBT. Due to our 98.62% ownership of TBT, its operations are combined with ours in the attached financial statements.

On May 25, 2017, we filed a Certificate of Amendment to our Certificate of Incorporation increasing our authorized common stock from 100,000,000 shares to 800,000,000 shares.

We have developed and patented a high technology, state-of-the-art transdermal sensing system that detects blood alcohol levels through a person's skin.

The following discussion analyzes our financial condition and the results of our operations for the three months ended March 31, 2018.

This discussion and analysis should be read in conjunction with TBT's financial statements included as part of this Quarterly Report on Form 10-Q, as well as TBT's financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2017.

Results of Operations for Three Months Ended March 31, 2018 Compared to Three Months Ended March 31, 2017

Summary of Results of Operations

	Three Months Ended	
	March 31,	
	2018	2017
Revenue	\$ -	\$ -
Operating expenses:		
General and administrative	79,843	133,353
Total operating expenses	79,843	133,353
Other income (expense):		
Loss on fair value adjustment-derivatives	-	(313,419)
Interest expense	(64,027)	(45,527)
Accretion (amortization) of interest – beneficial conversion feature	-	3,500
Total other income (expense)	(64,027)	(355,446)
Net loss	\$ (143,870)	\$ (488,799)

Operating Loss: Net Loss

Our net loss decreased by \$344,929, from \$488,799 to \$143,870 from the three months ended March 31, 2017 compared to March 31, 2018. Our operating loss decreased by \$53,510 from \$133,353 to \$79,843 for the same periods. The change in our net loss for the three months ended March 31, 2018, compared to the prior year period, is primarily a result of us having a \$313,419 loss on fair value adjustment from derivatives in 2017 compared to \$0 in 2018, and decreased general and administrative expenses in 2018 compared to 2017, partially offset by an increase in interest expense in 2018 compared to 2017. The changes are detailed below.

Revenue

We have not had any revenues since our inception. Since September 2011, we have been involved in the development, testing and marketing of SOBR, our unique alcohol sensor technology. Although we have not had any sales to date, we believe we are close to our first sales and revenue, but that will be dependent upon our ability to raise sufficient funds to bring the SOBR device to market.

General and Administrative Expenses

General and administrative expenses decreased by \$53,510, from \$133,353 for the three months ended March 31, 2017 to \$79,843 for the three months ended March 31, 2018, primarily due to a decrease in legal expenses and officer wages.

[Table of Contents](#)

Fair Value Adjustment - Derivatives

Loss on fair value adjustment - derivatives was \$0 for the three months ended March 31, 2018, compared to \$313,419 for the three months ended March 31, 2017. This decrease was due to the us not having a derivative liability at March 31, 2018. The derivative liability we recorded during the three months ended March 31, 2017 was due to us having convertible instruments that, if converted into shares of our common stock and added to our then outstanding common stock, would have caused us to have more shares outstanding than we had authorized.

Interest Expense

Interest expense increased by \$18,500, from \$45,527 for the three months ended March 31, 2017 to \$64,027 for the three months ended March 31, 2018. For both periods these amounts are largely due to the interest we owe on outstanding debt.

Accretion (Amortization) of Interest – Beneficial Conversion Feature

During the three months ended March 31, 2018, we did not have an accretion (amortization) of interest – beneficial conversion feature, compared to \$3,500 of amortization of interest during the three months ended March 31, 2018. The expense in 2017 was related to an unamortized discount on a convertible non-related party note payable that contained a beneficial ownership conversion feature.

Liquidity and Capital Resources for Three Months Ended March 31, 2018 Compared to Three Months Ended March 31, 2017

Introduction

During the three months ended March 31, 2018 and 2017, because of our operating losses, we did not generate positive operating cash flows. Our cash on hand as of March 31, 2018 was \$231 and our monthly cash flow burn rate is approximately \$25,000. As a result, we have significant short term cash needs. These needs are being satisfied through proceeds from the sales of our securities and loans from both related parties and third parties. We currently do not believe we will be able to satisfy our cash needs from our revenues for some time, and there is no guarantee we will be successful in the future satisfying these needs through the proceeds generated from the sales of our securities.

Our cash, current assets, total assets, current liabilities, and total liabilities as of March 31, 2018 and as of December 31, 2017, respectively, are as follows:

	March 31, 2018	December 31, 2017	Change
Cash	\$ 231	\$ 142	\$ 89
Total Current Assets	\$ 4,650	\$ 3,148	\$ 1,502
Total Assets	\$ 4,650	\$ 3,148	\$ 1,502
Total Current Liabilities	\$ 3,093,495	\$ 2,967,285	\$ 126,210
Total Liabilities	\$ 3,093,495	\$ 2,967,285	\$ 126,210

Our current assets increased slightly as of March 31, 2018, as compared to December 31, 2017, due to us having more prepaid expenses at March 31, 2018, as well as slightly more cash on hand. The increase in our total assets between the two periods was also related to the increased prepaid expenses and cash on hand as of March 31, 2018.

Our current liabilities increased by \$126,210 as of March 31, 2018, as compared to December 31, 2017. This increase was primarily due to an increase in interest expense on outstanding accounts payable and notes payable coupled with an increase in notes payable.

[Table of Contents](#)

In order to repay our obligations in full or in part when due, we will be required to raise significant capital from other sources. There is no assurance, however, that we will be successful in these efforts.

Sources and Uses of Cash

Operations

We had net cash used for operating activities of \$20,211 for the three months ended March 31, 2018, as compared to net cash used for operating activities of \$52,898 for the three months ended March 31, 2017. For the period in 2018, the net cash used in operating activities consisted primarily of our net loss of \$143,049 offset by stock warrant expense of \$9,694, and changes in our accounts payable of \$110,654, accrued interest payable of \$42,374, related party payables of \$168,658, accrued expenses of \$14,179, and prepaid expenses of 1,413. For the period in 2017, the net cash used in operating activities consisted primarily of our net loss of \$487,834 offset by note payable beneficial conversion expense of \$3,500, offset by change in fair value of derivative liability of \$313,419 and stock warrants expense of \$17,983, and changes in our accounts payable of \$2,415, accrued interest payable of \$29,004, related party payables of \$55,045, accrued expenses of \$26,534, and prepaid expenses of 5,964.

Investments

We had no cash provided by or used for investing activities during the three month period ended March 31, 2018 or March 31, 2017.

Financing

Our net cash provided by financing activities for the three months ended March 31, 2018 was \$20,300, compared to \$65,000 for the three months ended March 31, 2017. For the three months ended March 31, 2018, our net cash from financing activities consisted entirely of net proceeds from notes payable – related party of \$20,300. For the three months ended March 31, 2017, our net cash from financing activities consisted of net proceeds from notes payable – related party of \$40,000 and net proceeds from share issuances – related party of \$25,000.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements as of March 31, 2018 and December 31, 2017.

ITEM 3 Quantitative and Qualitative Disclosures About Market Risk

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 4 Controls and Procedures

(a) Evaluation of Disclosure Controls Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Disclosure and control procedures are also designed to ensure that such information is accumulated and communicated to management, including the chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures.

As of March 31, 2018, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer (our Principal Executive Officer) and chief financial officer (our Principal Financial Officer), of the effectiveness of the design and operation of our disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, management is required to apply its reasonable judgment. We also do not have an audit committee. Based on the evaluation described above, and as a result, in part, of not having an audit committee and having one individual serve as our chief executive officer and one individual serve as our chief financial officer, management has concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were not effective to the same extent as reported in our Annual Report on Form 10-K for the year ended December 31, 2017.

As funds become available to us, we expect to implement additional measures to improve disclosure controls and procedures.

(b) Changes in Internal Controls over Financial Reporting

There was no change in our internal controls over financial reporting that occurred during the period covered by this report, which has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

(c) Officer's Certifications

Appearing as an exhibit to this quarterly report on Form 10-Q are "Certifications" of our Chief Executive and Financial Officer. The Certifications are required pursuant to Sections 302 of the Sarbanes-Oxley Act of 2002 (the "Section 302 Certifications"). This section of the quarterly report on Form 10-Q contains information concerning the Controls Evaluation referred to in the Section 302 Certifications. This information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.

PART II – OTHER INFORMATION

ITEM 1 Legal Proceedings

On December 6, 2006, Orange County Valet and Security Patrol, Inc. filed a lawsuit against us in Orange County California State Superior Court for Breach of Contract in the amount of \$11,164A default judgment was taken against us in this matter. In mid-2013 we learned the Plaintiff's perfected the judgment against us, but we have not heard from the Plaintiffs as of April 2019.

We currently have one outstanding judgment against us involving a past employee of the Company. The matter is under the purview of the State of California, Franchise Tax Board, Industrial Health and Safety Collections. We currently owe approximately \$28,786 plus accrued interest, to our ex-employee for unpaid wages under these Orders and are working to get this amount paid off.

In the ordinary course of business, we are from time to time involved in various pending or threatened legal actions. The litigation process is inherently uncertain and it is possible that the resolution of such matters might have a material adverse effect upon our financial condition and/or results of operations. However, in the opinion of our management, other than as set forth herein, matters currently pending or threatened against us are not expected to have a material adverse effect on our financial position or results of operations.

ITEM 1A Risk Factors

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended March 31, 2018, we issued the following unregistered securities.

On March 31, 2018, we converted \$8,204 of a related party payable into 91,148 issued shares of our common stock, at a purchase price of \$0.09 per share. The issuance of the shares was exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933. The investor was sophisticated, familiar with our operations, and there was no solicitation.

ITEM 3 Defaults Upon Senior Securities

There have been no events which are required to be reported under this Item.

ITEM 4 Mine Safety Disclosures

There have been no events which are required to be reported under this Item.

ITEM 5 Other Information

There have been no events which are required to be reported under this Item.

STATE OF DELAWARE
CERTIFICATE OF AMENDMENT
OF
CERTIFICATE OF INCORPORATION
OF
TRANSBIOTEC, INC.

TRANSBIOTEC, INC. (the "Corporation") a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware, DOES HEREBY CERTIFY:

FIRST: Pursuant to Unanimous Written Consent of the Board of Directors of the Corporation on March 10, 2017, the following amendment to the Certificate of Incorporation of the Corporation was approved:

Article "Fourth" of the Certificate of Incorporation is amended to read in its entirety as follows:

Section 1. The total number of shares of capital stock which the Corporation shall have authority to issue is Eight Hundred Million (800,000,000) shares of common stock having a par value of \$.00001 each, and Twenty Five Million (25,000,000) shares of preferred stock having a par value of \$.00001 each. All or any part of the capital stock may be issued by the Corporation from time to time and for such consideration and on such terms as may be determined and fixed by the Board of Directors, without action of the stockholders, as provided by law, unless the Board of Directors deems it advisable to obtain the advice of the stockholders. Said stock may be issued for money, property, services or other lawful considerations, and when issued shall be issued as fully paid and non-assessable. The private property of stock holders shall not be liable for Corporation debts.

Section 2. The preferences and relative participating optional or other special rights and qualifications, limitations or restrictions of the common stock of the Corporation are as follows:

(a) Dividends. Dividends may be paid upon the common stock, as and when declared by the Board of Directors, out of funds of the Corporation legally available therefor.

(b) Payment on Liquidation. Upon any liquidation, dissolution and termination of the Corporation, and after payment or setting aside of any amount sufficient to provide for payment in full of all debts and liabilities of, and other claims against the Corporation, the assets shall be distributed pro rata to the holders of the common stock.

(c) Voting Rights . At any meeting of the stockholders of the Corporation each holder of Common Stock shall be entitled to one vote for each share outstanding in the name of such holder on the books of the Corporation on the date fixed for determination of voting rights.

(d) Majority Vote. The stockholders, by vote or concurrence of a majority of the outstanding shares of the Corporation entitled to vote on the subject matter, may take any action which would otherwise require a two-thirds (2/3) vote under the General Corporation Law of the State of Delaware.

(e) Cumulative Voting. Cumulative voting shall not be allowed in the election of directors or for any other purpose.

(f) Preemptive Rights. Unless otherwise determined by the Board of Directors, no stockholder of the Corporation shall have preemptive rights to subscribe for any additional shares of stock, or for other securities of any class, or for rights, warrants or options to purchase stock for the scrip, or for securities of any kind convertible into stock or carrying stock purchase warrants or privileges.

(g) Restrictions on Sale or Disposition. All lawful restrictions on the sale or other disposition of shares may be placed upon all or a portion or portions of the certificates evidencing the Corporation's shares.

Section 3. The preferred stock of the Corporation shall be issued in one or more series as may be determined from time to time by the Board of Directors. In establishing a series the Board of Directors shall give to it a distinctive designation so as to distinguish it from the shares of all other series and classes, shall fix the number of shares in such series, and the preferences, rights and restrictions thereof. All shares of any one series shall be alike in every particular. All series shall be alike except that there may be variation as to the following: (1) the rate of distribution, (2) the price at and the terms and conditions on which shares shall be redeemed, (3) the amount payable upon shares for distributions of any kind, (4) sinking fund provisions for the redemption of shares, and (5) the terms and conditions on which shares may be converted if the shares of any series are issued with the privilege of conversion, and (6) voting rights except as limited by law."

SECOND: That the foregoing amendment has been consented to and authorized by the holders of a majority of the issued and outstanding stock of the Corporation entitled to vote by written consent in lieu of meeting in accordance with Section 228 of the General Corporation Law of the State of Delaware.

THIRD: That the aforesaid amendment was duly adopted in accordance with the applicable provisions of Section 242 of the General Corporation Law of the State of Delaware.

IN WITNESS WHEREOF, said Corporation has caused this certificate to be signed this 24th day of May, 2017.

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exhibit Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
